

LIVE TIGRE

THE PROPOSAL

Live Tigre invites you to know the only live delta in the world that flows into a river... To discover the people and the particular way they live between rivers and channels..

You will be able to approach a unique ecosystem in its kind, only 30 minutes away from Buenos Aires. Before every descent, the bus turns itself into a cinema which video clips of approximately 4 minutes are projected. You will recall with images in 3D facts that might have changed the history of Argentina: Today our language could be English and we would not be tango dancers...

You will know the secrets of one of the places chosen by the porteñean aristocracy as a place of vacations at the end of the 19th century, their houses and the palaces... You will enter a world with streets... of water.
